YOUR HOROSCOPE

by Charles King Cooper

WEEKLY TIP: Your main focus of attention this week is the financial sector of your life.

ARIES (March 21 to April 19) Digging in your Arian heels isn't the right approach to take right now. Lighten up and become more flexible. If a surprise invitation from someone far away should arrive, accept it and have a good time. Spend some time going over your finances.

TAURUS (April 20 to May 20) It looks as if all your hard work and ambition will soon pay off handsomely. However, resist the temptation to rest on your laurels, and keep plugging. Some may pull a surprise decision on you, but it will be nothing you can't handle.

GEMINI (May 21 to June 20) A business partner has been doing a lot of fast talking, but very little work. Straighten this out and ease your own burden. Consider taking a mini-vacation with your mate to break up the winter monotony and brighten up your love life.

MOON CHILDREN (June 21 to July 22) You're receiving a lot of green lights in your career plans. However, don't be discouraged by a temporary setback. Your instincts and observations are right on the money, so keep at it. Unexpected phone calls bring interesting news this week.

LEO (July 23 to August 22) Family members are at their cantankerous worst this week, so avoid any get-togethers, dinners, etc. If possible, try to cut phone calls down to a minimum to avoid getting caught in the middle of quarrels. Romance is at an all time high, however, so take advantage and enjoy.

VIRGO (August 23 to September 22) Instead of getting bogged down by your recent setbacks, look for the solution. The answer will lie in compromise. A family member will reveal some startling facts to you, but it will be happy news. Turn on that sunny Virgo smile.

LIBRA (September 23 to October 22) Before going out and making that big purchase you have in mind, be sure to do your homework. It may not be worth the money being asked. Social invitations will turn out to be advantageous to you, as well as fun. Be sure all projects are completed before getting out and gadding about.

SCORPIO (October 23 to November 21) You haven't really bought a lot for yourself lately, so it's time to pay some attention to your neglected wardrobe. Rather than hanging on to those useless items you haven't worn in years, get rid of them and replace them with fashionable, new items to make you look trendy.

SAGITTARIUS (November 22 to December 21) You've been spending too much time brooding trying to reach an important decision on your own. If you open up and start sharing your thoughts, you'll be surprised at the insights you will receive. Being a loner is not to your advantage.

CAPRICORN (December 22 to January 19) Although you normally enjoy being gregarious, you will find yourself a bit wary of a certain invitation. This will turn out to be wise since this particular outing will hold no joy for you. You've been building up quite an empire, but keep this to yourself for now as others will want to cash in.

AQUARIUS (January 20 to February 18) Someone who's really not all that close to you is trying to get in on your latest career move. While you normally would like to include interested, enthusiastic persons, it won't turn out well for you this time should you do so. Your social star is shining this week and popularity is at the forefront.

PISCES (February 19 to March 20) For some reason, you're suffering from a lack of self-confidence. This is no time for that as an exciting career opportunity is winging its way toward you. Advice received from close friends and colleagues should be well-heeded and will prove helpful.

IF BORN THIS WEEK, you are more sensitive than the typical member of your sign. You have good insights into others and would make a fine psychologist, teacher or writer. Cultivate practicality to insure the positive development of your creative talents. You may be especially gifted in the area of music.

Home hints

... you ever want that little bit of chocolate syrup that's at the bottom of a squeeze bottle and won't come out? Don't fret, you can get every drop.

Fill the bottle with milk and shake it. It mixes with the last bit of chocolate. Then just pour it into a glass. You can add more milk if you don't like it too dark.

There's usually enough chocolate left in the bottom to make two glasses of milk. Janet O. Topeka, Kan.
